Introduction

Karaoke bars are one of the places people often go to have fun. We designed a website for a karaoke bar called 'Karaoke Night' for our project.

Objectives

- To make it easier for people to learn about karaokenight
- To provide users to access location and contact information about the place
- To enable users to see the options in the karaoke bar
- Provide a web interface for users

Target Customers

Students and also people in that area who love to have fun.

Its Overall Functionality

Website Features and Description

The users of the site can easily access our site at <http://karaokenight.com/>

1. Users, can learn the prices and types of food and beverages in the menu and drinks section on the site
2. Users can get information about the place from the About us section
3. Users can see the different options in different rooms and the number of capacity for which room from the rooms section
4. Users can look at the events that took place before and look at them, organize their own activities
5. In the photo gallery section, they can see the fun moments of people who have come to the venue before.
6. They can access communication options such as social media, e-mail and phone numbers and the location of Karakokenight from the contact section at the bottom.

A. ADMIN PANEL

A.1. Access Admin Panel

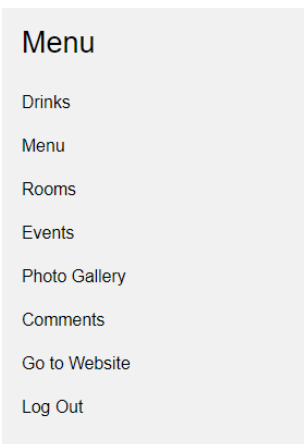

A.1.1. Log in

Enter your login and password into the login mask.

The image shows a login form titled "KARAOKENIGHT LOGIN FORM" set against a background of a mountain range. The form contains two input fields: "User Name..." and "Password". Below these fields is a blue "Login" button.

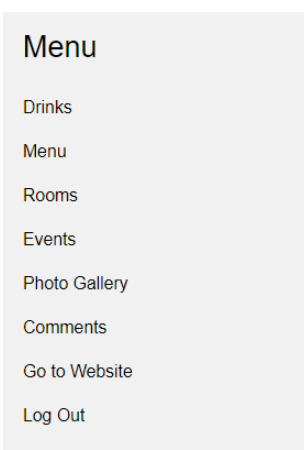

A.1.2. Go to User Interface

Click Go to Website button to return to the user interface.

A vertical menu with the title "Menu" at the top. The menu items are: Drinks, Menu, Rooms, Events, Photo Gallery, Comments, Go to Website, and Log Out. The "Go to Website" button is highlighted with a blue arrow pointing to it from the left.

A.1.3. Log out

Click logout button to return to the login mask.

A vertical menu with the title "Menu" at the top. The menu items are: Drinks, Menu, Rooms, Events, Photo Gallery, Comments, Go to Website, and Log Out. The "Log Out" button is highlighted with a blue arrow pointing to it from the left.

NOTE

Always log out correctly using the logout button. Do not simply close the window.

A.2. Folder Structure and View

Drinks folder should be used as a repository of all drink pages.

Menu folder should be used as a repository of all menu pages.

Rooms folder should be used as a repository of all room pages.

Events folder should be used as a repository of all event pages.

Photo Gallery folder should be used as a repository of all images.

Comments folder should be used as a repository of all comments.

A.3. Editing Content

A.3.1. Upload New Content

A.3.1.1. Drinks

In order to create a content click on add new post

New Post

icon.

Drink

Title	Explanation
water	\$2
ice tea	\$3

New Post

The dialogue window will open.

Add Drink

Title

Details

Add

Here you can:

1. Enter title of new entry
2. Enter additional information in description field
3. Clicking on [Add] confirms your input and you return to the list view.

A.3.1.2. Menu

In order to create a content click on add new post

New Post

icon.

Menu

Title	Explanation
Hamburger	\$6

New Post

The dialogue window will open.

Add Menu

Title

Details

Add

Here you can:

1. Enter title of new entry
2. Enter additional information in description field
3. Clicking on [Add] confirms your input and you return to the list view.

A.3.1.3. Rooms

In order to create a content click on add new post  icon.

Room

Photo	Explanation
	VIP ROOM Free, food.

The dialogue window will open.

Add Room

Image

Title

Add

Here you can:

1. Enter image about room type
2. Enter title and additional information of new entry
3. Clicking on [Add] confirms your input and you return to the list view.

A.3.1.4. Events

In order to create a content click on

add new post

New Post

icon.
