Betül Şahin 201805002

Ferhat Kamalı 171805056

KaraokeNight

The main purpose of the project is to give any information about the cafe that called "Karaokenight" to the visitors and to introduce this cafe to the visitors.

At the end of this sprint, the functions of the system can be listed as follows.

1- Users, can learn the prices and types of food and beverages in the menu and drinks section on the site
2- Get information about the place from the About us section
3- See the different options in different rooms and the number of capacity for which room from the rooms section
4- Look at the events that took place before and look at them, organize their own activities
5- In the photo gallery section, they can see the fun moments of people who have come to the venue before.
6- They can access communication options such as social media, e-mail and phone numbers and the location of Karakokenight from the contact section at the bottom.

We did not add or remove any user stories but as an addition to this; We decided to add the " add comment" section to our project. A database was required for this. So we decided to do this in the next sprint.

As far as we spoke at the meeting, we realized that we had fewer meetings than we mentioned at the beginning of the term and we thought that this was insufficient, so we decided to hold more meetings from now on. Of course, we decided to hold more individual meetings in our next teamwork. In addition, doing this project step by step in this lesson gave us some ideas about what policies we should follow in future projects.

which user stories came from which epic	Esti mate	Use case name	User story	Pre-condition	Standard flow	Post condition
	5	View Home page	As a site visitor, I can look at the about, and other menus links on the home page so that I learn about the Karaokenight.	-	1- A visitor click on "Home" tab or the web site logo and the homepage opens.	Homepag e viewed
View Content Pages (Epic)	3	View Drinks	As a site visitor, I can look at the drinks and their prices on the drinks so that I learn about the Karaokenight drinks prices.	Drinks options exist on the system	1- A vistor click "Drinks" button on "homepage" and the html extension page that has dirinks opens.	Drinks options viewed

Karaoke Night

ABOUT

Our party-pro Hosts will show you to some of the best bars and clubs around to give you an insanely cheap and unforgettable night out - though probably somewhat hazy!

No matter if you are visiting or living in London, you will meet some seriously awesome people. Are you ready!?
